

## Power Platform:

Built of industrial grade components that cost 4 times more but, it's worth a 1000 times more in an emergency.

\*Weight: 30 oz.

\*Size: 3.5"X5"X 7.75"

\*IP67 waterproof Box

\*Triple Sealed Stainless Steel Power input Shaft

\*Industrial Ball Bearing Generator

\*Stainless Fittings

\*All Soldered electronics

\*2 Charge Circuits

1. Regulated 6V 1000 mA

2. Unregulated up to 24V 4 Amps

\* Fast Charge pack for two AA or AAA Batteries

\* Removable Charge Pack to charge four AA or AAA Batteries.

1Internal Flashlight

2. USB 2 output port to charge cell phone, MP3, Game Boy, Weather Radio, Flashlights, Steripen, etc.

3. Can also charge pack form any computer USB Port or Car charger

\*Five modes of energy transfer

1. Solar 2.Hand Crank Generation 3. Bow Crank Generation 4.Water Turbine 5.Computer USB or Car charger

\*Two more Modes in development for seven modes of energy from this single platform.

## 100% Off-Grid Power

### Battery charging system

Palatine, IL 60074

847 287 7466
